watlow anafaze cls 208 manual, watlow anafaze tlm-8 manual

The TLM-8 is FM approved as a temperature limit switch, bears the CE mark (LVD and EMC Directives) and is UL® and C-UL® listed.. The TLM is compact and easy to install on a panel or a DIN-rail No cutout is required, reducing installation and fabrication costs.. Troubleshooting is simplified through a self-test diagnostics input, which simulates the alarm state.
